Summary

Dynamic **Frontend Developer** specializing in **JavaScript** and **React.js** to build high-quality, user-centric web applications. Expert in crafting responsive interfaces using **Tailwind CSS** and **Material UI**, with a strong focus on advanced state management using **Redux Toolkit**, **RTL Support**, and modern UI/UX patterns that enhance user engagement and drive seamless digital experiences.

Technical Skills

Languages: JavaScript (ES6+), HTML5, CSS3, SQL

Libraries & Frameworks: React.js, Redux Toolkit (RTK), RTK Query, React Router DOM, React Hook Form, Zod

Styling & UI: Tailwind CSS, Material UI (MUI), Bootstrap, Sonner (Toast Notifications), Icon Libraries

Tools & Platforms: Git, GitHub, Vite, npm, Firebase, MockAPI

Core Concepts: Responsive Web Design, Component-Based Architecture, RESTful APIs, RTL Support, LocalStorage Persistence

Projects

Swoo E-commerce Platform | *React, RTK Query, Redux Toolkit, Tailwind*

[Demo]

- Engineered a high-performance marketplace with **multi-criteria filtering**, **URL state persistence**, and a persistent cart/wishlist system using **Redux Toolkit** and **RTK Query**.

Merinda Recipe Discovery | *React, API Integration, Responsive Design*

[Demo]

- Architected a data-driven platform featuring **dynamic routing**, a **similar-content algorithm**, and 100% responsive **RTL-ready** layouts for global accessibility.

Data Analytics Dashboard | *JS, HTML5, CSS3, Firebase*

[Demo]

- Designed an interactive admin dashboard utilizing **Firebase** for real-time tracking, featuring complex data visualizations built with modern **CSS Grid** and **Flexbox**.

Professional Developer Portfolio | *React, Vite, CSS Variables*

[Demo]

- Developed a performant portfolio to showcase web deployments, featuring a custom **theme engine** using CSS Variables and optimized assets for fast load times.

Education

Faculty of Computers and Informatics, Bachelor of Science in Computer Science

- **Relevant Coursework:** Data Structures and Algorithms, Database Management (SQL), Software Engineering, Web Development.
- **Technical Focus:** Specialized in Modern Frontend Development and State Management Systems.

Languages & Interests

Languages: Arabic (Native), English (Professional Working Proficiency)

Interests: Performance Optimization, Open Source, UI Design Trends, Animated Series Production
